[Antenna Summer](#)

This summer it is time to get serious about putting up a decent antenna. Being a sensible guy I set myself some goals.

[Connect with the global community of Amateur Radio enthusiasts](#)

I first got involved in amateur radio (also called ham radio) in 2010, mostly to prove a point that "girls can be amateur radio operators too" — and discovered I was joining a fun community by doing so.

[Scrap dealer finds Apollo-era NASA computers in engineer's basement](#)

Plus hundreds of mystery tapes from Pioneer and Helios probe missions.

[Ars Technica](#)

[Review: Hiland adjustable DC regulated power supply kit](#)

Limiting the amount of current a prototype can draw is really a must. Also, Did I mention the power

supply goes down to zero volts? Not an every day need but definitely a good feature.
